Solar Terminals

G6 Solar Inlet Terminal

Protect G6 Solar Inlet Terminal has been designed to guarantee the integrity of the roof when cables and pipes are routed through the tiles/slates and roofing membranes and is suitable for solar panel installations.

Solar inlet terminal to be suitable for majority of single lap interlocking tiles and also available for slates and plain tiles, with specific profiles being available to order. Product to allow user defined holes to be drilled to accommodate different cable/pipe diameters. Solar inlet terminal to be available in red, brown, grey, terracotta and red streak. Product to feature low profile cowl for installation under retro fit photovoltaic panels.

To be mechanically fixed as per manufacturer's fixing instructions.
